

Surety® MA is a microalgae-based plant fertilizer refined through a bioprocess utilizing UPT® Technology. Surety® MA is specially formulated to efficiently deliver nutrients derived from Algae Protein Hydrolysate* to improve soils and crops by soil and/or foliar applications alone and in combination with traditional crop inputs and practices.

Renewable source of crop nutrition
for both soil and foliar application

Improves root and plant vigor

Optimizes conditions for resistance to
abiotic stress by improved nutrition

Contributes to improved soil
regeneration by providing soluble
carbon and organic matter

Complements traditional crop inputs

Improves crop yield

DISTRIBUTED AND GUARANTEED BY:

APPLICATION INSTRUCTIONS:

Shake well before use. Surety® MA can be used alone and in combination with other inputs by foliar and/or soil application.

Foliar	0.25-0.5% (1-2 qts/100 gal) at regular intervals
Soil	0.25 to 4 quarts per acre
Hydroponic & Substrate	0.25 to 4 quarts per acre
Seed Treatment†	4 oz (120 ml) per cwt

*Seed Soak for Rice: Mix 32-64 fl. oz. per 100 gal of soak water. Soak 12-48 hrs before seeding. Surety® MA may be tank-mixed with fungicides for use on rice including bleach products. Soak water should be disposed of in accordance with best management practices.

*Protein Hydrolysate is defined by AAPFCO as the organic material obtained by the hydrolysis of proteins to their constituent amino acids and short polypeptides.

Do not eat, drink, or smoke while handling product. Store in a cool, dry place between 7°C/45°F and 35°C/95°F. Do not expose to direct sunlight. Protect from freezing.
