

Surety® MA is a microalgae-based plant biofertilizer formulated to optimally deliver microalgae nutrients to improve soils and crops by soil and/or foliar applications in combination with traditional crop inputs and practices or used alone.

APPLICATION INSTRUCTIONS:

Shake well before use. Surety® MA can be used alone and in combination with other inputs by foliar and/or soil application.

Foliar	0.25-0.5% (1-2 qts/100 gal) at regular intervals
Soil	1-4 qts/a by side dress, fertigation, banded in furrow
Hydroponic & Substrate	1-4 qts/a or 0.25-0.5% (v/v)

**1.0-0-0
Guaranteed Analysis**

Total Nitrogen (N)	1.0%
0.2%	Nitrate Nitrogen
0.8%	Other Water Soluble Nitrogen

Information regarding the contents and levels of metals in this product is available on the internet at: <http://www.aapfc.org/metals.html>

A solution by

- ▮ Optimizes nitrogen efficiency
- ▮ Strengthens resistance to abiotic stress through improved nutrition
- ▮ Full amino acid package with all 20 in useable form
- ▮ Improves soil regeneration by providing soluble carbon and organic matter
- ▮ Naturally grown and harvested from photobioreactors, offering consistent analysis on every batch
